

MP1240N

ESD Safe Desk Mat—Size 12"x40"

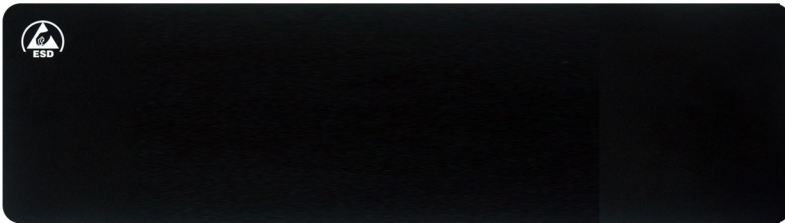

The ESD Safe Desk Mats keeps your grounded and your computer work station free from static.

A commonly overlooked source of ESD generating plastic is at your computer workstation. Mouse pads, pens, keyboards etc, are made with common plastic that generates a significant static charge. This threat can be removed when you create an static safe workspace with our ESD Desk Mat. Most common mouse pads are made of vinyl which is an insulator and a significant static generator. The MP7575N mouse pad is made from soft but firm ESD safe materials and does not generate a significant charge.
